

 Touch of nature.

Company profile

The company Grozdina shading systems has been established in 2008 and has –alongside its employees- managed to become one of the leading companies in the field of shading systems in Slovenia.

The company employs 5 permanent employees and 5 to 10 external associates, who work in the field of production and installation. The number of employees has been increasing every year, due to increasing amount and complexity of work and the need for new skills.

Grozdina shading systems is one of the most innovative, flexible and customer friendly company in the field of shading systems in the region.

Years of tradition, reputation and goodwill, which the company has acquired, are results of hard work combined with an innovative approach, experienced and skilled staff and good, honest business relations.

Quality policy

In our company we strive to provide our products and services implemented with high quality in accordance with the expectations of our customers and within the agreed time frames.

All products comply with recent standards of quality and sustainability.

The company follows standard ISO 9001 and product standard SIST EN 13659 in SIST EN 13120.

Our mission

We strive for high quality, innovative and technically sophisticated products, which is reflected in satisfied customers, employees and other business partners.

Our products offer the user a complete thermal and visual comfort, which means high-quality illuminated areas without glare and UV rays and transparent view outside, passive cooling of living spaces and a smart automation , which allows all of the listed to be regulated and adapted to your needs and desires.
